

Before install the driver. Connect the demo board to the computer with mini usb cable, and turn the demoboard.

**RUN this software**

when you rebuild the code in Keil,  
the hex file will be created. usually  
inside the OBJ folder.

烧录前关电源，  
然后将黄色帽短接，  
然后点烧录，  
烧录完断开黄色短接帽  
再重新打开电源

- 1.turn off power
- 2.short green area
- 3.turn on power  
and download code
- 4.reopen green  
area
- 5.power off and on  
again.
